Full-stack developer with hands-on experience in the MERN stack. Focused on building highly responsive web apps and solving performance bottlenecks. Eager to join a dynamic team where I can contribute and grow.

EXPERIENCE

REACT JS INTERN

Tectonic Software | Aurangabad

JAN 2025 – PRESENT

- Collaborate with the development team to design and implement dynamic, user-friendly web applications using **React.js**.
- Build reusable components and front-end libraries for future use to ensure scalability.

WEB DEVELOPMENT INTERN

Sublime Technology | Aurangabad

JUNE 2024 – DEC 2024

- Worked closely with the design and product teams to translate wireframes into highly interactive and responsive UI components which improved cross-team communication.
- Built scalable backend APIs that handled 500+ daily requests with zero downtime.

PROJECTS

GRAM SETU

Admin Panel for Social App

https://github.com/sublimetechnologies-in/setoo-react-admin

- Developed during my internship at Sublime, Gram Setu is an admin panel for a social platform where users post content by purchasing plans.
- I developed the frontend, implementing features for user activity monitoring, subscription management, and content moderation to ensure smooth platform operations.

LITTLE PAWS

E-commerce Website for Pet Products

https://pet-shop-nine-tau.vercel.app/

- Built a responsive e-commerce platform using the MERN stack with features like user authentication, product search, and a secure checkout system.
- Integrated RESTful APIs to connect the React.js front-end with the Node.js/Express back-end and MongoDB database.
- Designed a scalable architecture and deployed the application on Vercel & Render

LEARNING POD

Collaborative study platform

https://github.com/VAISHALI-NILE/Learning-pod-frontend

- Built a full-stack collaborative study platform using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Enabled real-time collaboration features, including group chats and shared study resources, while ensuring data security and scalability.
